NAVAL DRESS & BADGES

Royal Marine Light Infantry.

The physical standard for the Marines is higher than for any other regiment outside the Life Guards. The headquarters of the "Red" Marines, as the R.M.L.I. are called, are at Chatham, Portsmouth, and Plymouth, and numbers are carried in all the larger ships of war. Kipling's name of "soldier an' sailor, too," applies to them very well, for parties are frequently landed for shore service.
