

TITLE OF DRILL INSTRUCTORS

Some confusion exists over the use and meaning of the abbreviation DL (vide para 2 of AFO 1634/51 - Royal Marines - Specialist Qualifications for GD and Technical Branches) when referring to men qualified as Drill Instructors. In future the full title "Drill Instructor" is to be used when referring to this section on all normal occasions both verbally and in correspondence within the Corps. In certain publications where an abbreviation is clearly required the abbreviation DL may however continue to be used.
